

GridMax™

Intelligent on-grid inverter

ON-GRID · NO BATTERY REQUIRED

DAYTIME SOLAR SAVINGS.

GridMax converts energy from your solar panels into usable electricity for your home or business. It is the straightforward choice when battery storage and outage backup are not required.

On-grid

System type

1 / 3 phase

Phase options

5 / 7 yr

Lewis warranty

KEY BENEFITS

- Use solar electricity as it is generated during the day
- Reduce electricity purchased from the utility grid
- Connected performance monitoring on selected models
- Automatic safety shutdown during a grid outage

TECHNICAL SNAPSHOT

System type	On-grid solar inverter
Power rating	According to selected model
Phase options	Single- or three-phase, according to model
Battery requirement	No battery required
Grid-outage operation	No – automatic shutdown for electrical safety
Monitoring	Connected monitoring on selected models
Generator integration	Not normally required
Lewis warranty	5 years Standard / 7 years with Premium*

IMPORTANT

GridMax requires an active utility-grid connection. Choose PowerSync with a compatible TerraVault or TerraVault Max battery when backup power is required.

*Warranty, specifications and compatibility depend on the selected model, package and final system design.
